2.

WHAT

does the Program provide?

Navigating Opportunities in host area

“(Client Company) offers this program to assist your spouse/partner in exploring employment options and navigating the local job market. Since some countries will not employ non-nationals, the service can help identify career alternatives and find innovative ways to help partners enhance their professional skills and remain productive while on assignment. An International REA Coach who is familiar with the new host location will provide guidance and encouragement throughout the entire process. This program also assists with ‘establishing connections’ and making a smooth transition to the new community. The program is usually delivered over the telephone with some face-to-face support where feasible, and is customized to meet your spouse/partner’s individual needs and timeframe. Coaches are available to assist your partner until he/she has met his/her transition objectives.”

3.

HOW

do I learn more or get started?

REA will contact your spouse/partner

“I’ll have an Intake Specialist contact your spouse in a day or two to explain the program in more detail and answer any questions he/she may have”
